

4 ft GARDEN BRIDGE

BILL OF MATERIALS - Garden Bridge		
ITEM	QTY	DESCRIPTION
1	3	1" X 6" X 6'-0" long Cedar fencing material.
2	1	Outdoor wood glue
3	~200	Galvanized finishing nails, 1-1/4" long
4	1	Stain or Paint (optional)

Tools Required: This simple project can be completed with a hammer and circular saw. The use of a miter chop saw or table saw will only make the cutting easier and more accurate. The use of a straight fence board (choose the straightest furring strip) clamped to cedar fence board will make cuts with a circular saw straighter.

We are working on a customer "do-it-yourself" photo album web page which will feature photographs of our customers projects. If you would like to participate, take a picture of your project and either mail the photograph to us or scan it and e-mail it to us at:
